

Dear Sir, Mrs,

Following your request, we are pleased to inform you about the REACH Regulation 1907/2006/EC and our company's environmental policy.

Copaco Screenweavers NV has a high global standard for human health and environmental awareness, and we declare to fully comply with the REACH requirements for all our products. We will continue our efforts in monitoring further developments in the REACH-regulation as well as in assuring further compliance in this matter.

As a downstream user of dyestuffs and chemicals, we are not responsible for the (pre)registration of these chemicals, nor for the risk assessment. However, we have to make sure that our suppliers know the applications we use their products for (identified uses). Therefore, we are in close co-operation with our suppliers to monitor their progress and measures for REACH compliancy.

Our products are "articles" and are therefore not submitted to any registration obligations, except for the intended released chemical substances (not included in our article range). Secondly, the European Chemical Agency (ECHA) will publish, on a regular basis, a list of substances of very high concern (SVHC) on the Candidate list (<https://echa.europa.eu/candidate-list-table>). All required communications are uniquely linked to this official list. Whenever one of our articles contains such a substance, above 0,1% (w/w), we will communicate about these chemicals to our clients.

Besides, Copaco Screenweavers will start an active search for an alternative solution for the used substances on the Candidate list.

Additionally, our products comply with all the restrictions, as mentioned in annex XVII of the REACH-regulation. Based upon our own and our (European and non-European) suppliers' current knowledge, we can inform that we do not use any of these substances.

We are convinced that we have informed you of our REACH approach. We will continue to inform you on the further progress if necessary.

If you have any questions, please do not hesitate to contact us.

Sincerely yours,

Luc Janvier
Managing Director
